Scope plane

What he say he needs:

- A Website
- To showcase info about him.
- Post some examples of his work so fans and potential customers can see what he is capable for.
- To publicise his availability to perform at events such as drift, or make private photoshoots.
- To add links to Facebook and Instagram pages.

What he actually needs:

- Mobile-first responsive website
- Info page about the photographer
- Portfolio page
- Links to his social media
